	Email : contact@pacodecina.fr General management Catherine Monaldi Portable : 06 80 22 62 37
	Technical management Laurent Schneegans Portable : 06 73 38 27 26
	Sound management François Chaussebourg Portable : 06 87 69 02 64
<u>Set</u> :	Black dance floor. Opening 14 meters, depth 11 meters. Yamaha miniature grand piano or similar on the forestage stage right (if it is posible out of the dance space) Fly curtain with black back without folds if posible.
<u>Light</u> :	Light board with cues 66 2kw circuits
	34 1 kw P.C. (106, 201, 206, #100)
	13 2 kw P.C. (197, 108)
	 1 kw profiles 15/41 Juliat 614 type or similar 12 2 kw profiles Juliat 713 SX type (#119)
	28 P.A.R. 64 CP 61 (12 in 108) (NSP)
	3 P.A.R. 64 CP 62 (108) (MFL)
<u>Sound</u> : stage)	It is better if the sound mixing table is in the audience space (directly in line with the
	Mixing table
	6 independent outputs (Mix and sub-group), that you can assign to any band (any input).
	Band equalizer with at least 2 semi-parametric <u>Peripherals</u>
	2 CD or MD desk, with auto-cue (single track play) that works (or auto-pause)
	3 graphic equalizers (2x31 bands)
	1 delay in line on the front
Diffusion syst	1 mike stand and 3 mike lines on the stage
1 front of the house with sub bass, appropriated to the sound level of the audience space.	
	2 wedges on the floor for the pianist (put on the side)
	2 loud-speakers on the floor upstage about 2x500 W
	If it is a big audience space and/or with balcony, allow delayed extra loud-speakers and 2
	loud-speakers hung on the last fly bar upstage, about 2x500 w It is better if the whole diffusion system has the same brand.
